EDUCATION

Motilal Nehru National Institute of Technology

Bachelor of Technology Computer Science and Engineering

CPI : 8.58 (Till sixth semester)

Prayagraj, India

2022 - 2026

S.G.R Public School

Class 12th

Percentage: 94%

Sikar, India

2020 - 2021

S.G.R Public School

Class 10th

Percentage: 90%

Sikar, India

2018 - 2019

PROJECTS

InfraSketch (Next.js, React Flow, FastAPI, Terraform, Kubernetes, Jinja2, Docker, TypeScript) [Github](#)

- Developed a visual cloud infrastructure design platform with a drag-and-drop interface using React Flow and Next.js.
- Implemented automated code generation for Infrastructure as Code (IaC), producing Terraform modules for AWS and YAML configurations for Kubernetes.
- Enabled dynamic DevOps template rendering with support for core AWS services such as VPC, EC2, S3, EIP, and Kubernetes Pods and Services.
- Empowered teams to visually architect and export scalable cloud infrastructure, bridging the gap between design and deployment workflows.

Mess-Relay(React.js, Node.js, Express.js, MongoDB,Tailwind CSS,Redis,Razorpay) [Github](#)

- Built a role-based mess management system enabling secure access for students, accountants, and wardens.
- Integrated Redis for caching frequently accessed data, reducing database load and ensuring lightning-fast response times.
- Designed secure Razorpay payment integration for streamlined mess fee transactions.
- Facilitated students to view menus, expenses, and notices, and submit complaints directly to the chief warden.

Job Connect(React.js, Node.js, Express.js, MongoDB, NodeMailer, Tailwind CSS) [Github](#)

- Added capabilities for recruiters to create, update, and manage job listings and choose suitable candidates.
- Created job search functionality with filters to match jobseeker requirements and upload resumes.
- Engineered seamless job applications with real-time updates and automated email alerts using NodeMailer.

TECHNICAL SKILLS

Languages:- C, C++, HTML, TypeScript, Javascript

Developer Tools:- Visual Studio Code, Postman, Git, Docker, Jinja2

Cloud/Databases:- MongoDB, SQL, AWS (via Terraform)

Infrastructure & DevOps:- Terraform, Kubernetes, Docker

Web Technologies:- React.js, Node.js, Express.js, Next.js, Socket.io, React Flow

Coursework:- Operating Systems, Object-Oriented Programming, Computer Networks, Database Management System, Data Structures and Algorithms

ACHIEVEMENTS

- **1st Position– Hack 36:** Built *InfraSketch*, a visual IaC platform, during a 36-hour college hackathon.
- **Top 30 – Codestart 7.0:** Secured a position among the top 30 teams in a college-level ICPC-style contest.
- **Top 50 in Institute – GeeksforGeeks:** Solved 800+ DSA problems and ranked among the top 35 in college.
- **576th Place – CodeChef Starters #141:** Achieved a global position in a rated contest focused on algorithms.
- **1551st Position – LeetCode Weekly #438:** Finished in the top ~4.8% out of 32,000+ participants.
- **Top 5.35% on LeetCode with Max Rating 1867,** showcasing strong problem-solving ability.

POSITION OF RESPONSIBILITY

- **Training and Placement Representative (TPR), MNNIT Allahabad** Jan. 2025-Till date
Organized and coordinated placements events including Alumni Connect and Recruiter Connect.
